Independence Through Personal Care

Akkase Home Health Care is dedicated to providing the highest degree of personal health services in an economical, efficient and professional manner. Our values are rooted in the belief that compassion comes not only from helping others, but also by acknowledging our responsibility and kinship with those we serve.

At Akkase Home Health Care, we understand that every client is unique. Our highly-trained professionals are carefully screened and selected to provide the kind of compassionate, consistent and personalized care you demand for yourself or loved ones.

Better And Safer At Home

Home health care encompasses a wide range of services that allow people to remain in their home while recovering from an illness or injury. We also help maintain or improve the quality of life for individuals with long-term or chronic illnesses. Home health care is more convenient and personal than the care received in a hospital or a skilled nursing facility.

Our Core Values

Honesty, integrity, communication and fairness are the key elements in the way we operate our business. We value the professionalism, competency and teamwork of our staff.

Community
